

Program Components

Child's Book helps children reflect on the mysteries of the Eucharist and Reconciliation through celebrations, colorful and appealing visuals, and interactive pages with activities and prayers. Faith at Home features and pages help families support children in their preparation.

Catechist Edition provides everything the catechist needs to be successful—easy-to-use planners, theological, spiritual, and historical background, an easy-to-use three-step lesson process, a wealth of resources and activities, plus activity masters and Scripture pantomimes, dramas, and narrations.

Family Guide features reflections for all adult family members who are involved in preparing children and also offers step-by-step outlines for families preparing children in the home.

Songs of Celebration CD (available through Our Sunday Visitor) offers songs used in the celebrations for *Call to Celebrate: Eucharist* and *Call to Celebrate: Reconciliation* for catechetical sessions and families at home.

My Mass Book and **My Reconciliation Book** are delightfully illustrated guidebooks for children that present and guide them through both Sacraments of Eucharist and Reconciliation.

Stories of Celebration include two separate videos that present dialogue with children, parents, and noted catechists and liturgists to help parents and catechists reflect and understand their role in preparing children for First Communion and Reconciliation.

Certificates are full-color mementoes that you may personalize for each child once the first Sacrament of the Eucharist or the Rite of Reconciliation has been celebrated. Each certificate provides a space for the pastor to sign and the church seal to be affixed so families have an official record of the celebration to take home and frame if desired.

Sacraments Source Book provides a wealth of information and practical resources, including professional development articles, catechist and parent orientation and training sessions, family centered sessions, and parish assembly sessions.
