

Eucharist Parent/Adult Catechesis 1:1

Belonging

Name a group or organization you belong to that is really important to you, so important that you would rarely miss an opportunity to be around the other members.

Think back to your initial contact with the group: What was it like? Why were you attracted to it?

Did the group have levels or stages of belonging? (e.g., old timers, those who could do certain things and those who could not)

What marked the movement from one level or stage to another?

Eucharist Parent/Adult Catechesis 1:1 (continued)

As you continued in a relationship with the group, did you give anything up to continue?

What are the values or beliefs of the group? How were they passed on to you? How do you live them out?

What have you learned about belonging?
